Busy Learning

Welcome back to everyone after the half term break. It is lovely to see all the children happy to be back.

This week we have talked about firework night and noises the fireworks make. We have painted onto tin foil using neon paint and created some fantastic firework art. We also used various tools to print onto black paper the results were very bright and bold.

We have been using various sized pipettes and syringes in the glittery water, using the pipettes to suck up the water. This activity will help strengthen our grip, which will in the future help our pencil grip and improve our writing skills.

We have been looking at size and naming 'Big' and 'Small' items around nursery we are getting very good at it.

Reminders

We go outside whatever the weather at nursery so please can we politely remind parents to ensure your children come to nursery with jumpers, coats, wellingtons and indoor shoes please. If your child does not have wellingtons we do have some spare pairs which they are able to wear for wet outdoor play.

Outdoor Learning

We are very busy developing our outside area. This week we have swept the area where our 'Mud Kitchen' is and we are excited to be developing this area further. The children really enjoy exploring this space to make potions and mud pies.

We would be very grateful of any kind donations of old cooking tins, large metal spoons, jugs and cutlery to help enhance the area further. They will all be put to good use.

Thank you for your cooperation the children will benefit greatly.

Facebook

The school Facebook page is a closed page that only accepts parents and carers of the children attending Winhills Primary Academy. The page is up dated with photos of our busy learning weekly. If you wish to sign a consent form giving permission for your child to appear on this page, just ask at the office or a member of staff so the relevant forms can be given to you.

It is a great way to see what we all get up to.
