

WINHILLS

Year 3 and Year 4

Fortnightly Newsletter

Year 3

English

Moonstone class have started to identify the key features of non-chronological reports. We have been able to identify these in a range of non-fiction texts. Each child has chosen a topic to research and will be creating their own report.

Mathematics

The children have been focusing on learning their 3, 4 and 8 times table facts. We have also been focusing on division using the selected times tables. Moonstone have recently started to apply the grid method to show their multiplication workings out.

Science

In Science we are looking into the world of rocks. The children have already identified and grouped various different rocks. We will begin to classify different rocks and will be studying how fossils are formed.

Year 4

English

Year 4 have just finished writing a diary from the perspective of the Iron Man! The children were able to use rhetorical questions and emotive language in their work!

Mathematics

The children have just finished perfecting their written methods for addition and subtraction and are now looking into a written method for multiplication!

Science

Year 4 are just coming to the end of their topic on 'Habitats'. They have created some fantastic posters which highlight all the good and also bad things us humans do to the environment! They have also been looking at ways we can help save our environment.

ICE Zone

Year 3 and 4 are whizzing through all of their ICE zone work and are really enjoying it! Currently, the children are investigating some Tudor artefacts that were kindly lent to us by St Neots museum. The children are studying each item and thinking about what they were used for and the impact that these objects had on life in the Tudor times and today.

Reminders

Please make sure that the children have warm clothes with them everyday as they are going outside to learn!

Also, we are handing out the literacy homework every Thursday. This is due in on a Monday.

Lastly, please make sure the children are completing 1 hour of Maths Whizz and week and reading every night! We will be checking reading journals every week.
